

Invitation

Please join us to exchange over a cup of coffee on key questions related to the Bavaria-Québec/Alberta/International scientific cooperation.

For our first Forschungscafé of 2025, we are pleased to welcome Nico Goller, Project Manager, Innovation Management at Bayern Innovativ. Nico Goller will present the results of an extensive technology trend scouting conducted along Canadian high technology sectors. Beyond the trends and strengths of the Canadian ecosystem, Nico Goller will share insights on the scouting exercise itself, and feature the cooperation opportunities that arise for Bavarian companies and researchers.
