

Invitation

Please join us to exchange over a cup of coffee on key questions related to international scientific cooperation. Our virtual Forschungscafés/Science Cafés are a place to meet, learn, and network. In an informal setting and collaborative environment, we are pleased to welcome Anja Simon, CEO of Labs Network Industrie 4.0 e. V., a German precompetitive not-for-profit association dedicated to the promotion of Industrie 4.0. LNI 4.0 supports SMEs in their digital transformation, and offers neutral testing opportunities for their members.

Together with her Québec partner Geneviève Bourgoing, Senior Growth and Digital Transformation Leader at DigifabQG, an industrial expertise center located in Longueuil and representative of the Quebec Industrial Expertise Centers Network (RCEI), Anja Simon will present their joint demonstrator project, in support of digitalization and linkage of the international production processes along digitalized value chains.

Data on the global highway of international supply chains: a Bavaria-Québec Approach

Forschungscafé / Science Café

Guest Speakers: Anja Simon, LNI 4.0 & Geneviève Bourgoing, RCEI

Moderation: Dr. Florence Gauzy, WKS, BayFOR & Dr. Peter Freier, DGQMü

Thursday, 06.06.2024, 14:00 - 14:45 pm CEST (8h00 – 8h45 in Québec)

Videoconference*

*To allow for an authentic interaction between the participants, the number of attendees is limited. **We kindly ask you to register in advance.** You will receive the videoconference details and link upon registration. Please register **until 04.06.2024** per mail at: bayern-quebec@bayfor.org. We are very much looking forward to meeting you soon!
